

WHAT IS CLAIMED IS:

1. A control apparatus, comprising:
receiving means for receiving a remote control signal transmitted from a remote controller;
5 judgment means for judging an external equipment corresponding to the remote control signal; and
transmitting means for transmitting control data corresponding to the remote control signal to the external equipment judged.
- 10 2. A control apparatus according to claim 1, wherein said transmitting means is a digital interface based on the IEEE 1394-1995 standard.
- 15 3. A control apparatus according to claim 1, wherein said control apparatus is a digital video recorder.
- 20 4. A control apparatus according to claim 1, wherein said control apparatus is a TV monitor.
5. A control apparatus, comprising:
selection means for selecting an external equipment;
25 receiving means for receiving a remote control signal transmitted from a remote controller; and
transmitting means for transmitting control data

corresponding to the remote control signal to the external equipment selected.

6. A control apparatus according to claim 5,
5 wherein said transmitting means is a digital interface based on the IEEE 1394-1995 standard.

7. A control apparatus according to claim 5,
wherein said control apparatus is a digital video
10 recorder.

8. A control apparatus according to claim 5,
wherein said control apparatus is a TV monitor.

15 9. A control method, comprising the steps of:
receiving a remote control signal transmitted from
a remote control controller;
judging an external equipment corresponding to the
remote control signal; and
20 transmitting control data corresponding to the
remote control signal to the external equipment judged.

10. A control method according to claim 9, wherein
the control data are transmitted to the external
25 equipment through a digital interface based on the IEEE
1394-1995 standard.

11. A control method according to claim 9, wherein
said control method is to control the operation of a
digital video recorder.

5 12. A control method according to claim 9, wherein
said control method is to control the operation of a TV
monitor.

10 13. A control method, comprising the steps of:
 selecting an external equipment;
 receiving a remote control signal transmitted from
a remote controller; and
 transmitting control data corresponding to the
remote control signal to the external equipment
15 selected.

20 14. A control method according to claim 13,
wherein the control data are transmitted to the
external equipment through a digital interface based on
the IEEE 1394-1995 standard.

15 15. A control method according to claim 13,
wherein said control method is to control the operation
of a digital video recorder.

25 16. A control method according to claim 13,
wherein said control method is to control the operation
of a TV monitor.
